NEWS OF THE MORNING.

Yessius is "erupting" through a new crater.

Destructive storms reported in Pennsylvania, Ohio and Virginia.

The cholera is increasing in Spain. Quarantine is being strictly enforced.

Frost has appeared in New Orleans and the fever seems to be abating slightly.

A new plot against the life of Kaiser William has been discovered, and several arrests made.

The Secretary of the Treasury announces that he will pay out silver dollars on currency liabilities.

Wells, Fargo's messengers had a fight with stage robbers in Wyoming yesterday, and killed two of them.

The Republicans elected a full set of unpledged delegates in Storey county yesterday. But one ticket was in the field.

The Louisiana Nationals have tendered Gen. Beauregard the nomination for Governor on their ticket. The negro vote is said to be solid for him.

How the Fever Started.—The origin of the yellow fever in Grenada is believed to be as follows: A Mrs. Field had ordered a dress from New Orleans. Shortly after it had arrived she was taken down with what the physicians pronounced bilious fever and congestion of the brain. She died in two days and a public funeral was held at the Presbyterian church, which was very largely attended. Then a young man was immediately taken with a similar disease and died. Suspicion was not aroused, and his funeral was largely attended, the societies being in force. Others were stricken and the doctors said "yellow fever," but the warning came too late, for the germs of the disease were coursing through the blood of many a poor victim's veins. The desolation which followed, and which is still unchecked, is well known.

A RESOLUTION was introduced in the Lyon county Republican Convention by Patrick Henry, of Silver, pledging the Legislature nominees to support John P. Jones, first, last and at all times, for United States Senator for the ensuing term, to which an amendment, by Dr. Bierly, was offered, and accepted, as follows:

Resolved, That this Convention unqualifiedly indorses the course of J. P. Jones, and that he is the choice of this Convention for United States Senator.

THIS, from the *Renoille*, is too pointed not to be appreciated: When the Democratic State Convention meets it will be in accordance with the eternal fitness of things for it to incorporate in its party platform a strong resolution against fourth terms in office. It will be four years before they can kick the stuffing out of the platform again.

A UNITED STATES statute, which went into effect two years ago, requires that all elections for Representatives in Congress should be held on the same day. The laws have, however, since been modified, so as not to apply to any State that has not changed its day of election and whose constitution must be amended in order to effect a change in the day of election of State officers in said State.

FLOOD, the Bonanza millionaire, is building what will, it is said, be the finest private residence in America. The grounds include 1,500 acres on San Francisco Bay, comprising a natural park ready for improvements to any desired extent. The house is 100 by 200 feet in area, and resembles a French chateau of the old style. Verandas surround it, and the roof is broken with many gables and two towers 150 feet high.

THE REAL INVENTOR OF THE TELEPHONE.—An article in a recent number of the *Pekin Gazette*, written by Chin Hoo, says Kong Fong Whing, a distinguished philosopher who flourished about the year 976, invented the telephone—which is known in China as "Thumthein" in the year 968!

In Visalia, California, Thursday night William J. White caught Dr. McWhirring in his wife's bedroom. A fight ensued, during which White cut McWhirring's throat from ear to ear with a pocket knife.

JUDGES EAST, who has been nominated by the Greenbackers for Governor of Tennessee, was Andrew Johnson's private secretary while the latter was President.

THE COMSTOCK.

A Good Working Market.—The Sierra Nevada Ore body soon to be tested by crosscutting—Crosscutting soon to be commenced at the Alta.—The Flooded Mines—Prospecting taking a Pre a Start—What is Being Done by Our Leading Mining Companies.

[Enterprise, 14th.]

The present ore market is one that nobody should find fault with. Although stocks may not "boom" every day, yet those of the leading mines are gradually crawling up, the line of each new departure after a decline is always well up above that preceding it, and in the little retrograde movements no one is much hurt.

Thus far all is looking well at the new bonanza in the Sierra Nevada, the formation continuing strong and the ore as rich as at first. Soon the 2200 level will be reached and a cross-cut will be run through the ore body. This will be a critical moment in the life of the new bonanza, as then will be made known its exact width. Whether it shall prove to be fifty feet wide or but ten it will be a proof that rich ore really does exist in the Comstock at great depths. The formation is such as indicates that the ore body extends to a depth much greater than the 2200 level, also that it has great strength in the course of the length of the ledge. This is of great importance to the Union Consolidated and Mexican Companies.

At the south end of the hole the troubles between the Alta and Justice have been amicably adjusted, and the Alta Company may now safely begin the work of crosscutting the ore vein on the several levels where it has been stripped and may extract ore at the points where it has already been opened into.

The Justice has ore in most points where prospecting is being done, and the indications for finding a large body on the 1300 level are excellent.

The Crown Point and Belcher Companies are pushing forward their crosscuts on the 2300 level in a very favorable formation, composed largely of quartz yielding low assays.

At the Savage and Hale and Norcross good headway is now being made in the work of draining the lower levels, and the water will soon be off the 2100 level, when work may be resumed in the drifts thereon and where a development of ore may reasonably be expected.

The work of crosscutting is being pushed as rapidly as possible in the Best and Belcher and Gould and Curry mines, and in both the formation is of a very favorable character.

In the Ophir the ore body will soon be reached on the 2100 level, and a cross-cut will soon be started on the 2200 level, which corresponds with the depth at which the change of formation began in the Sierra Nevada.

The Julia Company are still pushing their crosscuts in ground of a very favorable appearance, and may ere long strike something besides base metal.

Prospecting is very active in all directions, and many companies that have long lain idle are resuming work in earnest and in good shape. Of course most of these are situated as indicated, but so long as there is probability of ore being found, it has not been long since the Sierra Nevada was looked upon as an untamed feline, but it is now at the head of the list.

A TALE OF HORROR.

Dr. Wm S. Ramsay, from Washington, one of the physicians who went to Memphis, has returned. He says:

Before reaching Memphis, even when five miles out, the air was laden with yellow fever poison, and as we approached the city the stench was absolutely sickening. Dr. Peaso and myself went to the Peabody Hotel, the only one now open, and were shown into a room from which a dead body had just been removed. Vessels of black vomit were standing about the room and the bedclothes had not been changed. The hotel itself is a perfect pest house, and the victims of the disease are in two-thirds of the rooms. Sulphur pans were kept burning in the halls and closets and bedding are constantly disinfected, but they cannot get enough help in the hotel to do what ought to be done. All commerce has ceased and business of nearly every kind is suspended. The people have no heart to attempt any regular business, and could not if they would. Even liquor saloons, for the most part, are closed and provision stores as a rule are empty. The greatest need is provisions, clothing, doctors, money, nurses and medicine. The best thing that can be done now is to send plenty of provisions and clothing. The negroes and many poor whites for a section of 150 miles around Memphis have flocked in to the city, hearing they could get something to eat, and ask for clothing. Hundreds of poor people are going about the streets, mostly colored men, with hardly any clothes on. The sights in this respect are distressing. So far no serious outbreak has occurred, but the better class are in constant terror of a riot. The city is in the hands of colored police altogether, and while they behave very well, there is still a lurking fear on the part of the whites of some additional evil.

Persons expecting big fortunes from unclaimed estates in England, Scotland and Wales, will have to push their claims rapidly, as by a new property limitation act, by the British Parliament, all claims older than twelve years are to be barred after the first of January, 1879.

The following named gentlemen are the delegates to the Republican State Convention from Lyon county: Theodore Vinson, Joseph Munckton, James B. Shaw, W. R. King, W. Keith, —, Shield.

The lower house of the Maine Legislature will stand: Sixty-five Republicans, two Democrats elected by the Republicans, twenty-seven Democrats and fifty-seven Greenbackers.

THE ANTI-JONES MOVEMENT.

The Gold Hill News is publishing a series of articles on the Senatorial question, remarkable for the common sense they contain. This journal has reproduced all of these articles. The News has a late one, under the above heading which we endorse so heartily that we use it as our "leader." It reads as follows:

Day by day the evidence increases that a ring is being formed within the Republican party of this State to defeat the election of John P. Jones to the United States Senate. There are rumors of such a movement on every side, and the conspirators have not acted so secretly but that their plans are known, and can be defeated if prompt action is taken. The ball was set in motion nearly a month ago, by an article in the Lyon County Times, which was sent out as a flier to the party. This article, was treated, as it deserved to be, by the Republican press of the State, no notice being taken of it. The conspirators thus failing to create a sentiment in their favor by means of the press, have begun the manipulation of the people, and will do all in their power to so control the primaries on the 21 of October as to secure the nomination of men for the Legislature who are opposed to the reelection of Jones. It is the county primaries in which the great fight will be made, and it behooves every good Republican in the State of Nevada to scan closely the names presented to him as candidates for delegates. Let no man be elected a member of any Republican County Convention who is not known to be a pronounced Jones man. If this precaution is taken, no candidate for the Legislature will be offered for our suffrage who cannot be depended upon to vote for Jones first, last and all the time.

It may as well be understood at the outset that the Republican party has no chance of carrying the legislative ticket, but by endorsing and carrying John P. Jones with it. Various causes have arisen in the last four years to loosen the bands of strict party lines. This is no time to discuss these causes. The fact is evident to all political thinkers that neither party can carry this State next November on strict partisan grounds. It is our duty as Republicans to take this fact into consideration. The great fight, outside of the Governorship, will be for the position of United States Senator. The Republican party owes it to itself, more than to John P. Jones, that it stand firmly in favor of his reelection. His record during the six years of his service is the best of any man in the Senate. He shouldered the entire burden of the poverty and misery of the country, and by his giant energy and perseverance reared for it a victory over the wealth and aristocracy of the land. This victory was but partial to be sure; but that is the very best reason why we should send him back to complete the work. No man in the nation today can do it so well and thoroughly as he.

John P. Jones is the champion of the poor man, and every laborer of the State of Nevada recognizes his position. With him for our standard bearer we shall gain for our legislative ticket hundreds of votes which would otherwise be cast for the Democracy. The men who are engaged in the attempt to undermine him in the party may be at heart good Republicans. They may honestly believe that they can snatch the mantle from his shoulders and at the same time prevent its falling upon a Democrat. If they believe this, they have not the brains which are necessary to make a good leader in any party, and the sooner they desert us and go over to the organization of ignorance and folly, the better it will be for the Republican party. If by any chicanery candidates for the Legislature are nominated who are not known from the beginning to be pledged to Jones, they will be defeated by Republican votes as surely as the sun rises on the day of election. We know whereof we speak. The people of Nevada are watchful. They demand that John P. Jones shall be again returned to the United States Senate. If their voice cannot be heard in the County Conventions, it will most assuredly be heard at the polls. The issue is a very plain one. It is Jones and a glorious victory, or treason to the party and an ignominious but richly deserved defeat.

SENATOR JONES AND THE YELLOW FEVER SUFFERERS.

PALACE HOTEL, SAN FRANCISCO, September 9, 1878.

EDWARD CURTIS, Esq.:—My Dear Sir: Since I saw you, arrangements have been made compelling me to leave on Wednesday for Southern California. I regret this necessity, for sad as the occasion may be, I could wish to add such weight as my presence might give. No cause appeals more heartily to the sympathy of the whole people. The response I am sure will be as great as the need. Devastated and desolated homes and families from the plague-stricken South for aid. It is but little that money can do, at the best, to alleviate the suffering that prevails, or check the misery that exists. But let that little be done with a lavish hand. The people of San Francisco, great-hearted and charitable, with sympathies alive to all human needs, can never be appealed to in vain. I am sure that their response will be manifold. You will please draw on me for \$100. Again regretting my inability to contribute otherwise, I contribute to the success of your most worthy effort. I have the honor to remain yours, most respectfully.

JOHN P. JONES.

A VIRGINIA exchange says: "It is reported here that Colonel Fair is making preparations to make Ophir the next lively gamble, and give the boys a deal. Ophir has got the ore 200 feet higher than Sierra Nevada. The drift from the main incline is running for the ore on the 2100 level, and should reach it during the present month.

The Bidleman ranch, in Six mile canyon, was on Friday turned over to the heirs of the estate.

TRUCKERS ITEMS.

The Republic of the 14th contains these items:

Hay from Sierra Valley offered at \$19 a ton.

A Reno bartender came to town and Truckee whisky gave him delirium tremens in twenty-four hours.

The fire in the woods just across the river from town needs close attention. It blazed up very fiercely Thursday. But thanks to the efforts of the Truckee Lumber Co., it was kept in subjection.

Pyramid Lake trout every day at the Truckee Hotel. This not only proves that Moody is an enterprising landlord, but shows that the trout are back in Pyramid Lake. To the fishermen we would whisper a word to the effect that the law in future will be strictly enforced.

The Okolona (Miss.) States repels with contempt the notion that Jeff Davis has his eye upon the Senatorship from Mississippi. It says:

We hardly think he would step down from his present proud and dignified exalted position to take the place. We hardly believe he would even accept a unanimous tender of the Presidency, for he holds a position to-day that is higher than that of the highest potentate on earth. But we tell the New York Tribune, and the supporters of the Confederate chieftain wanted an office at the hands of his people he could have it, and neither Mississippi nor the South would care two straws whether "the North draws the line at Jefferson Davis" or not.

Two Chinese sluice robbers were killed at French Corral, Nevada County, on Friday night. They were cleaning up the Milton Water and Mining Company's sluices, when John Moulton, the watchman, discovered and shot both of them.

At Osburn & Shoemaker's you can buy Florida Water for 25c and 50c; Cashmere Boquet Soap for 25c, other toilet soaps in proportion; Sanders' Face Powder, 37 1/2c, other toilet powders in proportion; also just received from the East a large and splendid assortment of Fancy Hair Oils, Colognes, Extracts, etc., which we offer at prices lower than ever offered in Reno. Call and see them.

STAGE TO PYRAMID.—Having formed a conjunction with J. W. Whitehead, I will run a stage to Pyramid, leaving Reno on Tuesdays and Fridays of each week, returning Sundays and Wednesdays. Passengers, \$2 50; fast freight, one cent per pound. Office, Soda Factory, Johnson building. ALFRED JOSE.

CONTINENTAL OIL AND TRANSPORTATION Co.—F. McKee is prepared to furnish all kinds of lubricating and coal oils to any parties in the State, at the most reasonable rates. Being sole agent for the Continental Oil and Transportation Company, he can furnish better rates and quality than anyone else. Office near Bragg's Lumber Yard, Reno, Nevada.

For pure fresh drugs and medicines, best English hair and tooth brushes, Colgate toilet soaps, genuine Faries cologne and Lubins' or Lumborgs extracts, and everything usually kept in a first class drug store at lowest prices, go to Queen's, west side Virginia street.

S. E. WARE is prepared to clean water closets, etc. All orders will be promptly attended to. Leave orders at the Capital or Chas. Becker's saloon.

THE City Drug Store keeps on hand their celebrated Sweet Castor Oil. Everybody uses it. Only 25 cents per bottle.

THE simplest, best and most durable machines—the New American—for sale for \$30, at S. N. Davidson's Jeweler.

For the celebrated Crystal Peak Beer leave your orders at J. J. Beckers, H. F. Rohrs Agt.

Go to G. W. Cunningham's for choice mountain fruit of all kinds; wholesale and retail cheaper than any other house in town for quality and price. East side Virginia St., Reno.

Go to G. W. Cunningham's for choice, first class Family Groceries, and Provisions. I defy competition for quality and price. East side of Virginia Street, Reno, Nevada.

Sewing Machines adjusted and repaired so that they are as good as new, at Davidson's.

ALL kinds of sewing machine needles, the best, at 50 cents per dozen at Davidson's.

CATHOLIC ENTERPRISE.
Reno to Have a Catholic Convent and a College—Plans and Specifications already Made—\$50,000 Worth of School.

Some time since the Sisters of St. Dominic purchased from Pat McCorn all of his block near the Catholic Church and more recently a large tract of land in Evans' Addition. Upon the former block the Sisters will shortly erect a two-story brick convent. The plans and specifications of this edifice have already been made out and the brick contracted for. The building will probably be commenced in a couple of weeks.

Bids will be advertised for in a few days, and after the contract is let the work will be crowded through to an early completion. The cost will be between \$15,000 to \$20,000. The people will shortly be called upon to subscribe toward this building. The college will not be undertaken until Spring. It will be of brick and will be patterned after the College at Santa Clara. This is to be a very fine building and will cost between \$25,000 and \$30,000. Matters are being so shaped that when work is commenced upon this building the finances will be on hand to pay for it. Thus Reno is to be enriched by two more State institutions. If the Methodists would build the college here they spoke of, we would indeed be the seat of learning. By the way, what is being done about that Methodist College? We hope the Conference will set the project in motion again.

RENO—PAST AND PRESENT.
Advance in Real Estate—A General View of Our Progress as a Town.
A deed was recorded recently by Recorder Williams transferring four lots in the Western Addition for \$450. The sale was made four years ago, now those lots are worth at least \$1,000 each. Had it not been for the hard times no doubt the advance would have been even greater. We can easily remember when J. S. Shoemaker built his residence in the Western Addition, when it was thought to be a long ways out of town. Now the difference now some of the most residences in town have since been built there, and Mr. Shoemaker is in the center of quite a settlement. The same growth will be noted in Evans' Addition, across the river, and in fact in all the outskirts of town. At this, too, in the distant years known to our country and State. Not so the buildings small, but on the contrary the majority of them have been large, and in many instances pretentious. This growth bespeaks a permanent and future greatness hardly dreamed of now. Year after year large tracts of land are being reclaimed from the reign of sagebrush, huge irrigation canals are being projected and built, an extensive and wealthy mining region exists all around us, the land is of the most fertile on the coast; our people are alive and energetic, our schools will compare favorably with any; our climate healthy and invigorating, in short our past has been remarkable and our future is full of promise. When the dull times shall have passed away Reno will be a town in which will reign prosperity and progress.

Mr. Bayard Taylor is a dispatch to the State Department advising German American naturalized citizens who may revisit their old homes to in all cases notify the authorities of the probable duration of their sojourn and to take no part in political discussions. The observance of these hints will save them much trouble at the hands of Mr. Bi-march's police.

AL LONGLEY reported to the Gold Hill News mosquitos large and numerous on the Tuckee Meadows this year—in fact larger and more numerous than at any time during the last sixteen years.

The following messages remain uncalled for in the Western Union Telegraph office: P. Ford, R. R. Parkinson, Jim Hand, Wm. Hayes, B. G. Warwick (care S. Purdy), David Evans and R. S. Palmy.

MASON LEEPER and **HAWKINS** went to Carson yesterday to address the people of that town, in the interests of the Workmen. Mr. Hoole was sick and could not go, as was at first announced.

The Crown Point Mining Company has levied an assessment of one dollar per share on their capital stock; the Imperial one of 20 cents.

POSTMASTER GENERAL KEY will visit the Sacramento Fair. He would find much to interest him at our coming fair.

MR. GULLING is building a nice residence on the corner of Lake and Flax streets. When it is completed he will have a very cozy home.

MR. B. B. NORRIS is still at Weber Lake. He is better than when he left Reno, but not much.

FIFTH ANNUAL FAIR.
Nevada to Excel Herself—Emerging Efforts to Making the Coming Fair an Event to be Remembered—A Glance at the Preparations.

For four years past Reno has been a lively town during the State Fair, and each year has been a little better and livelier than the preceding one. The coming Fair will far exceed either of the others in point of interest, extent and attendance. Already a number of fine horses have been entered for the races—the liberal purses hung out being an incentive to all, and every day a lively scene is presented at the track by trainers exercising their animals. Applications for space for stock are coming in thick and fast, and this seems to show that the display of "blue blooded" stock will far excel the meritorious exhibits of former years. The Pavilion will be a great improvement upon the depot heretofore used, in that it will be light, airy and better calculated to display the articles exhibited. The officers are ceaseless in their efforts to add every attraction, and succeed admirably. Then, in addition to the exceedingly liberal premiums offered by the N. S. A. M. & M. S., the special premiums offered by public spirited citizens of Reno will serve as an incentive to exhibitors. The crops this year have been unusually good, and therefore the farmers will have better produce to show, and then last, but not least, politics will be "red hot" in October and politicians will be here en masse. Truly, the outlook of the next State Fair is remarkably bright and promising.

Mr. Duck Alive.
The friends of Mr. Wm. Duck will be glad to learn that he did not die night before last, and though not yet entirely out of danger, is in such a condition as to lead to the belief that he will recover. Shortly after 10 o'clock, night before last, he was taken to his room, as it was found that he could no longer stand the violent treatment he had been receiving throughout the evening, and those who were walking him had to drag him along. Dr. Bergman ordered him to his room to be placed in bed, determining to keep him alive as long as possible by the aid of the electric battery. The battery was applied, more stimulants given, and strange to say, he soon revived his pulse beat soft and regular, and he passed off to sleep—a sleep from which he was easily aroused; he became thoroughly conscious, and Dr. Bishop declared him out of immediate danger. All those present drew a sigh of relief, and a silent prayer went up from the hearts of many to the Giver of all Good, that old Billy Duck had been spared a while longer to this world. Dr. Bishop and other friends remained with him throughout the night. Yesterday he was still better, and less than ever under the influence of the drug.

A Plague Among the Horses.
A disease called the farcy, which is a disease of the blood, allied to the glanders, is causing the death of many valuable horses in and about Truckee Meadows. The *Enterprise* of yesterday, says that during the past four days Breed & Crosby, of Virginia City, have lost work horses to the value of \$1,000 that were turned out to pasture at Glendale. In the last week about forty horses have died of the disease in the localities mentioned. Some animals have also died up in the mountain pasture ranges. It is said that the blood of the animals appears to turn to water. This produces a species of dropsy in and about the breast and neck. To tip the sick animals kills them, and if not tapped they die. The animals die so easily that they seem going to sleep. Owing to their blood turning to water they are too weak to die with a struggle.

New Mines Located.
The discoveries made by Nash, Loomis and others of good looking ledges some five or six miles north of town has attracted considerable attention among mining men here, and as a consequence all the country in the vicinity has been staked off into claims. We have been shown specimens of the rock, which certainly look very promising. The lack of capital is what ails these miners, in common with many others, and they are compelled to let them lie idle, because it costs money to develop them.

Cholera Morbus.
Just now this is the "pestilence" that walketh at noon day. Green fruit abounds and of course the people will eat, and of course the stomach rebels and the result is cholera morbus. Ripe fruit is good and no cholera morbus lurks within it, but somehow people prefer to trifle with "rotten kind, and the result is unerring.

Homes.
The building mania is not over with. Every man that can gather together some lumber, shingles, nails, etc., is providing a home for himself. We should say that not less than a dozen new houses have been started since the 1st of the month. Reno is all right.

A Notable Wedding.
Mrs. W. C. Gray has gone to Napa to attend the wedding of her sister Miss Martha R. Amos. Miss Amos will be married on the 26th inst. to Prof. Milton Buck. At the time Miss Amos graduated from the Napa College, Mr. Buck was a professor in the College, but for the last year he has been in the ministry and stationed at Suisun. The marriage will take place during the annual session of the California Conference, the ceremony being performed by the presiding Bishop, assisted by the bride's brother-in-law, Rev. W. Gray. Mrs. Gray, Mrs. Grigby, and Mrs. Moody, Miss Amos' three sisters will be present at the wedding.

Democratic Club.
Last night between 75 and 100 Democrats assembled at the Academy of Music, as per call, and proceeded to effect the permanent organization of a Club. The following officers were elected: President, J. P. Richardson; Vice President, Jerry Brown; Recording Secretary, J. M. Flanagan; Corresponding Secretary, Charlie Queen; Treasurer, Chas. Kaust. Constitution and By Laws were adopted and the Club thoroughly organized. The report of the committee appointed to select thirty names from which the Democrats are to elect eleven delegates was adopted and the committee discharged.

At the Race Track.
There was not a very large attendance at the track yesterday to witness the race of 50 miles against time by J. P. Smith. Mr. Smith, who has been sick for two or three days, attempted the task, however, but after going ten miles and using ten horses he gave it up. He was 26 minutes in going the ten miles. After this came the half mile dash, which was won by Modoc in 57 seconds.

Soldiers from Bidwell.
Lieut. Fred A. Smith, of Co. G., Twelfth Infantry, arrived from Camp Bidwell last evening on his way to Prescott, Arizona. His company will be here Monday night, and will go to Arizona where they are to be permanently located. Company D, of the Eighth Infantry are to be stationed at Bidwell hereafter.

\$12,000 Per Mile.
Assessor Fish has assessed the road beds of the Central Pacific and the V & T R R at \$12,000 per mile, throwing the burden of equalizing them at \$9,000 per mile, which has been the custom in this county for three years, upon the Board of Commissioners. What is the reason the Board can't let the Assessor's statement stand this time?

Workmen.
About the only thing of public interest at the Workmen's meeting last night was the postponing of the day of holding the primaries from the 21st to the 28th inst. A little Club business was attended to, and after a speech of two the meeting adjourned.

Well Brothers.
These gentlemen, agents of the Cleveland Cloak and Suit Co., announce that they will reopen at the old stand, east side of Virginia street, in the 17th instant, with a full line of ready made Fall and Winter goods. They will sell good goods cheap for cash.

Weather Note.
Yesterday was an angry day. The wind and dust held high carnival, the atmosphere was smoky, and take it all in all yesterday was a day not calculated to be inspiring or enjoyable. Washoe zephyrs are not conducive of happiness or comfort.

Central Pacific Land.
Assessor Fish assesses the U. P. \$25,000 more this year than last, due to the fact that during the past year the Company has taken out patents for 9,000 acres of land. They now have patents for nearly 30,000 acres in this county.

County Business.
The Board of Commissioners will meet to-morrow and transact such business as may properly come before them and then enter upon their duties as a Board of Equalization.

Bonanza Bailout.
The following shipments were made last night from the bonanzas: Eleven bars Cal. Va., \$49,072.75. Sixteen bars Cal. \$75,473.61. This is the first shipment so far.

District Court.
The District Court will be in session to-morrow, and the real business of the September term will commence.

Republican Club.
All Republicans are desired to meet at the Court House to-morrow (Monday) night, for the purpose of organizing a Republican Club. All Republicans should be present and join the organization, so that a thorough and powerful fight may be made to carry the approaching election.

A MAN was taken to the hospital last night, having the mountain fever. The case is said to be a very severe one.

THERE are sixteen patients in the hospital—fourteen men and two women.

NOTHING in the Police Court yesterday.

SIX prisoners in the county jail.

READ! READ! READ!—Dennis Kearney, Henry Ward Beecher, Sam Tilden and Ben Butler are coming. Tremendous excitement at the White House, Commercial Row, next door to the Postoffice. I beg leave to announce to the citizens of Reno and vicinity that having purchased the entire stock, consisting of clothing, boots and shoes, gents' furnishing goods, hats, etc., at the bankrupt sale of the late firm of Choan & Isaacs and receiving in addition an extensive stock purchased for cash, that I will sell at San Francisco prices. I respectfully solicit the patronage of the public, assuring each and all fair and square dealing, at all times and in every respect. Call and examine our stock before purchasing elsewhere. Prices according to times. Don't forget the White House, L. Abrahams, proprietor.

WHO WANTS BARBARS?—The dissolution sale of Barrett Bros. offers extra inducements just now, if you have the coin and need Dry Goods, Clothing, etc., of any kind. They sell without regard to cost, as a glance at their price list in another part of this paper shows. Let all who want bargains call on them as they mean just what they say. All indebted to them are desired to come up and settle immediately.

Go to the City Drug Store if you want pure, fresh drugs and medicines, hair and tooth Brushes, Toilet Soaps, Lubin Extracts and Florida Water, and all articles usually kept in a drug store, sold cheap, for cash. Prescriptions accurately compounded, day and night.
